

Tomorrow's Technology Today

TECHNICIAN'S CHOICE®

PROFESSIONAL SERIES

**FASTENERS & HARDWARE
SHOP SUPPLIES & EQUIPMENT**

AUTOMOTIVE • FLEET • TRUCK & TRANSPORTATION

ECP Incorporated, one of the oldest and most trusted names in the Automotive Industry, features its Technician's Choice® program. Since 1969, ECP has delivered proven chemistry, product innovation and merchandising targeted to increase revenue traffic. Technician's Choice® is a major market segment of ECP's line of professional products - Auto Armor®, The Protector® and Platinum Professional Car Wash Systems® and Tornador®.

Tomorrow's Technology Today

TECHNICIAN'S CHOICE®

PROFESSIONAL SERIES

Professional Detailing, Prep, Reconditioning & Service Chemicals

Quality products for Prep, Detailing, Reconditioning, Service & Body Shop Departments plus specialty products, aerosols, facility maintenance, bench chemicals, shop supplies and equipment.

PLATINUM
PROFESSIONAL CAR WASH SYSTEMS®

Professional Car Wash Chemicals

A complete line of professional series products created and formulated exclusively for tunnel, automated or handwash operations; complemented by a full merchandising and signage program.

TORNADOR
PROFESSIONAL CLEANING TOOLS

Tornador Professional Cleaning Tools

Tornador® Professional Cleaning Tools is ECP's newest brand bringing years of experience in air driven cleaning tools for the professional user. Covered by 6 U.S. Patents (Nos. 6,883,732; 8,480,011; 8,690,077; and 9,475,0712) Tornador® is the right tool for each precision detailing job. No other tool has made detailing easier and more complete than Tornador®.

AUTO ARMOR
ENTIRE CAR PROTECTION

THE PROTECTOR

Appearance & Protection Systems

(Sold Exclusively Through New Car Dealers)

A diversified line of products and programs for new car dealers which include: Protective Coatings for new, used, and leased vehicles, Optional Protection Products and Customer Appreciation Programs.

NTC
NATIONAL TRAINING CENTER

ECP's National Training Center

ECP provides a variety of comprehensive training courses that put you to the test while hands-on courses teach the methods that are proven.

BUTT CONNECTOR

Cool Seal Heatless

The patented Cool Seal is the most innovative and cost effective electrical connector to hit the market in 25 years. A heat-less, solderless terminal, it utilizes revolutionary anaerobic sealant technology that installs in a fraction of the time of comparable heat seal connectors. Simply strip the wire and crimp, activating the sealant, to create an environmentally sealed connection. The innovative new sealant prevents the ingress of moisture and air, the nylon insulation provides maximum abrasion and puncture resistance, while the seamless, 99.9% ETP copper connector offers optimal electrical conductivity. Requiring no heat, the Cool Seal will reduce overall costs by eliminating the need for torches or heat guns, reducing the installation time, and improving productivity.

GRINDING & SURFACE

GRINDING & SURFACE

GRINDING DISCS

Quick-change cloth-backed discs are excellent for blending, finishing & grinding most any material. The flexible backing will adapt to contoured & irregular surfaces & penetrate hard to reach areas. The Type-R fastening system allows for quick & easy changeovers. Discs must be used with a like-sized holder pad & at a speed that does not exceed the pad's maximum RPM rating. Applications include deburring, grinding, edge-breaking, surface refinement.

SURFACE DISCS

*Special Order Items - Please allow additional time for shipping.

Often referred to as "cookies", these non-woven surface conditioning materials are both flexible & durable. The "cushioned-type" construction provides excellent conformability & provides a long, uniform & consistent cut rate throughout the discs life. The Type-R fastening system allows for quick & easy changeovers. Discs must be used with a like-sized holder pad & at a speed that does not exceed the pad's maximum RPM rating. Applications include cleaning, blending, finishing (i.e. quick removal of hardened gasket material, surface rust, corrosion & oxidation, paint removal, blending of welds & parting lines, light deburring, edge radiussing, satin finishing, ferrous & non-ferrous materials. Coarse: 80-120 grit finish. Medium: 150-220 grit finish.

TIRE REPAIR

Tire Repair Wall Cabinet Kit

Includes Wall Cabinet and 1 of each of the following: TR1002, TR1005, TR1006, TR1007, TR1008, TR1011, TR1012, TR1013, TR1014, TR1015, TR1016, TR1017, TR1018, TR1019, TR1034 and TR1047.

Medium Round Patch

Rubber patch for repairing injuries to tubes & rubber products. Patch Size Inch: 2.25" Patch Size mm: 56mm

Pistol Grip Open Eye Needle Inserting Tool

Fat Brown String

Size Inches: 4" Size mm: 100mm

Combi-Unit with Pilot Wire Small

A steel pilot wire is molded into the plugs so that when the wire is pulled through the injury, the plug fills the injury & the patch seals the innerliner. Stem size = 1/4" (6mm)

Rubber Stem Repair - 1/4"

A steel pilot wire is molded into the plugs so that when the wire is pulled through the injury, the plug fills the injury. Stem size = 1/4" (6mm)

Radial Repair Patch-2 1/4"

Medium, round, 2 1/4" patch size.

Radial Patch-2x3"

Radial Patch-3x4"

Bias-Ply Repair-3x3"

Two ply.

Fast Dry Cement

Aerosol Buffing Solution

For use in conjunction with scraping tool to aid in dissolving & removing contaminants & lubricants from the innerlining before buffing.

Bead Sealer

Bead sealer helps to prevent leaks between the tire bead and rim.

Inner Liner Sealer

For use around the edges of repair units, overbuff areas and on porous innerliners.
