

3 IN 1 SURFACE CLARIFIER™

Acid Alternative

DESCRIPTION:

TEC246 3 in 1 Surface Clarifier™ is the next evolution in total vehicle decontamination and is safe for use on all of the vehicle's exterior. The product can be used as a spot treatment or for whole vehicle decontamination. 3 in 1 Surface Clarifier™ utilizes effective chemistry but is 100% Acid/VOC free. This acid alternative product is also non-corrosive, non-fuming, non D.O.T. regulated, 100% biodegradable, has hardly any odor and safely dilutes with water. Surface contaminants are quickly removed from the surface with little to no agitation required.

DIRECTIONS:

Vehicle to be treated should be cool to the touch and preferably in the shade. Product can be applied to all exterior surfaces, including glass, paint, trim, chrome and plastic. Product can be diluted. For heavy cleaning dilute up to 1:1, for medium cleaning dilute up to 1:4, for light cleaning dilute up to 1:8. For localized treatment, liberally spray product onto problem areas. Allow product to penetrate and safely dissolve contaminants for at least 1-2 minutes. For best results, light agitation with a soft wash mitt will remove contaminants more effectively. Do not allow product to dry on the vehicle. For whole vehicle treatment, dilute as needed in a wash bucket. Wash vehicle from top down, allow to dwell for 1-2 minutes, and rinse well. Repeat as necessary.

OUTSTANDING FEATURES:

- For use on all exterior surfaces
- Little to no odor
- Can be diluted depending on levels of contamination
- Non-corrosive

AVAILABLE SIZE(S):

- 1 Gal
- 5 Gal
- 55 Gal
