

## DETAIL XPRESS™ SPRAY SHINE

### DESCRIPTION:

Technician's Choice® Introduces DX227660 Detail Express™ Spray Shine - Ultimate Cleaning Wax... Removes tar, bugs, tree sap and more. Excellent for all painted surfaces, glass, mirrors, chrome, stainless steel, aluminum, fiberglass, gel coat finishes and non-porous plastics. (Avoid using on Seats, Dashboards, Vinyl Tops, Convertible Tops, Molding or Tires.)

### DIRECTIONS:

Select an outdoor location where you would usually clean and wax your car. Shake well! Spray on a light coat directly on a 3-4 foot section of the vehicle. Use a Terry Cloth Towel to gently rub product in a circular motion (protective gloves recommended). Allow 10-20 seconds for product to dry to a "haze". Using a second soft towel (Micro Fiber Towel recommended) buff off excess to a show car shine. To avoid over spray when using around tires or black molding/insulation tight spaces, spray directly on the application towel and wipe product on.

**NOTE:** For faded paints, bugs, tar, tree sap, etc. apply a heavier coat directly on the spot to be treated, then let stand 2-3 minutes to allow product to remove substance(s) from surface before rubbing.

### OUTSTANDING FEATURES:

- VOC/OTC Compliant
- Dries Quickly
- No Trigger Spray Problems
- No Wiping
- Water Proof
- Perfect For Hard To Reach Areas

### AVAILABLE SIZE(S):

- (12) 17.5oz Cans/Case
